

Waipahu Intermediate School
NCAC Annual Conference - School Visit
October 22, 2025

Waipahu Intermediate School plays a vital role in the Waipahu Complex schools' K-12 commitment to developing globally competitive and locally committed students. Our pre-academy school design is a direct result of this shared vision to prepare students for the rigors and opportunities of high school and beyond. Waipahu Intermediate students start their 7th grade journey in the Pre-academy of Exploration, where they discover a wide range of interests through elective choices and leadership opportunities. This foundational year leads to a more focused 8th-grade experience in one of two pre-academies: the Pre-academy of Design & Innovation or the Pre-academy of Helping People & Saving Lives. In each pre-academy, core content learning in Language Arts, Math, Science, and Social Studies take an interdisciplinary team approach to providing a strong academic foundation and social emotional support for all students. This dynamic learning environment, which aligns subject area content, curriculum, career-connected learning, and real-world experiences, ensures a purposeful transition to the Academies at Waipahu High School and sets students on a course for future success.
